

Since our formation in 1974 MK Air Controls has established a reputation for being one of Europe's foremost suppliers of pneumatic automation components.

A reputation that has been forged by always striving to develop long standing business relationships with customers and only providing the highest quality engineered products, supported by an adherence to ethical and honest business practices - at every level.

Over the past years we have become the authorised UK distributors for the world leading developers and manufacturers of automated fluid power components :-

MAC VALVES, PHD, BIMBA, ALLIED WITAN, J.GUEST, PIAB, WILKERSON, PRESSOTECHNIK and COMPACT AIR PRODUCTS.

To ensure that we meet your specifications exactly we operate a hands on "show and tell" approach which incorporates - application discussions, product demonstrations, samples, on site trials and testing.

MK Air Controls meet the rapid advancements being made in fluid power automation by constantly developing speciality products for arduous applications and demanding systems. Turn key control panels are now supplied regularly. Quite simply, we have the resources to guarantee that no challenge is too demanding.

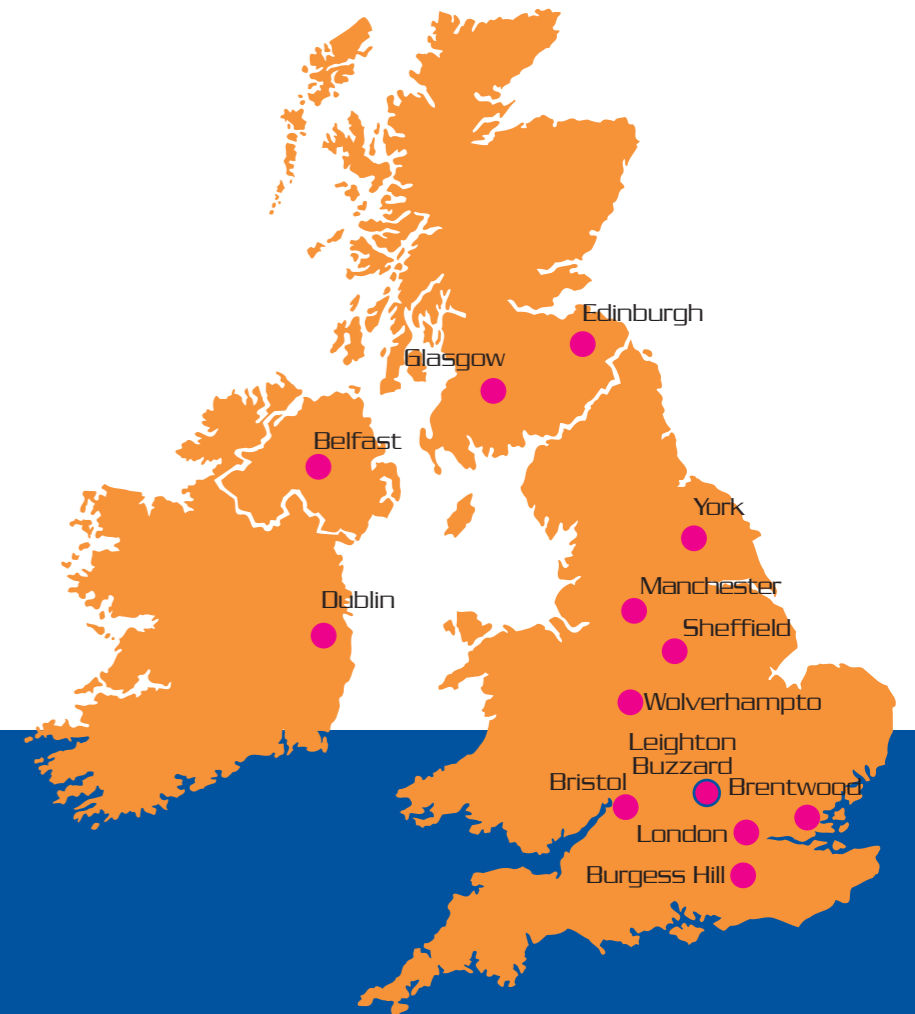

Delivering the promise

Within our 16,000 sq. ft. custom built office and warehouse facility, we hold a truly comprehensive stock holding and every item is guaranteed same day dispatch, which means you get what you want- when you want it.

Because at MK Air we believe in delivering the promise every time.

Partners in business

Here at MK Air Controls we do not send you a "sales rep". we only employ highly skilled Sales Engineers who are employed to act as partners in business to all our customers, for short, medium and long term projects. Also, by having them based across the United Kingdom we can guarantee a rapid response to your initial enquiries and provide a full after sales support service.

For the foremost names in pneumatic automation components, supported by a company that provides a service that is second to none.
