Astronomical Telescope

INSTRUCTIONS:

- 1 Place the Telescope Tube Holder Bolt through the hole in the Mounting Platform and secure with the Tightening Nut, remember not to over tighten.
- 2 Place the Telescope with Tripod attached onto an even surface and aim Objective Lens towards desired location.
- 3 Then while looking through the eyepiece, slowly adjust the Focusing Tracking Wheel until the image is sharp. Check that the Telescope extends and retracts using the Focusing Tracking Wheel.

20, 30 and 40mm eyepieces
